

**AGENDA SUMMARY PAGE**  
**CITY COUNCIL MEETING OF: MAY 20, 2009**

**DEPARTMENT: PUBLIC WORKS**

**DIRECTOR: JORGE CERVANTES**

☐ Consent ☒ Discussion

**SUBJECT:**

Discussion and possible action on a request to install speed humps on Cannon Boulevard between Michael Way and Minnesota Street (\$5,200 - Neighborhood Traffic Management Program) - Ward 5 (Barlow)

**Fiscal Impact**

☐

No Impact

☐

Augmentation Required

☒

Budget Funds Available

**Amount:** \$5,200

**Funding Source:** Neighborhood Traffic Management Program

**Dept./Division:** PW/Traffic Engineering

**PURPOSE/BACKGROUND:**

Councilman Ricki Barlow received a request to install speed humps on Cannon Boulevard between Michael Way and Minnesota Street. An 85th percentile speed of at least 35 mph and a volume of 800 vehicles per day are needed to meet the criteria for speed humps. Studies conducted on this street showed that the 85th percentile speed was 33 mph and the volume of traffic was 364 vehicles per day, so it did not meet the normal criteria for speed humps. Since this roadway accumulated 13 points and a total of 40 points is recommended for the installation of speed humps, staff is recommending denial of speed humps. This street is not an emergency response route.

**RECOMMENDATION:**

Traffic and Parking Commission: Approval

Staff: Denial

**BACKUP DOCUMENTATION:**
